GOT QUESTIONS? GET ANSWERS.

Each member of our Technical Services Team (the smiling faces shown above!) receives hundreds of hours of training, from in-depth product and regulatory topics to emerging trends across industries. We're educated on the issues that affect you most, so when you call us about the challenges at your facility, we're ready and waiting with always-free expert advice to help you get the job done right.

Helping You Work Cleaner, Safer & Better

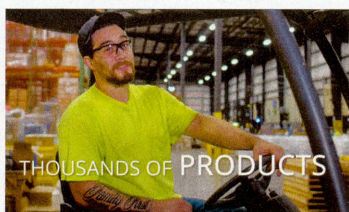

Thanks to our diverse backgrounds, we're schooled in product applications, regulation compliance, chemical compatibilities and much more. Team members hold degrees in chemistry, ecology and safety science to name a few, and have a combined 75 years of experience in the leak and spill industry. For the most complicated EPA or DOT issues, we've teamed up with experts in the field to provide the latest information and solutions.

Types of Topics We Can Help With:

- ✓ Product Recommendations & Assistance
- ✓ Floor Safety Strategies for Slips & Falls
- ✓ Complying with Secondary Containment Regulations
- ✓ Properly Storing & Containing Liquids
- ✓ Understanding RCRA & Hazardous Waste
- ✓ Drain Protection & Filtration for Stormwater Compliance
- ✓ Storm Preparedness & Business Continuity Planning

Give us a squeal at 1-800-HOT-HOGS® (468-4647)!

MEET NEW PIG IN THIS VIDEO!

You can count on us for products that work, people who know their stuff and service that'll put a smile on your face. Scan to watch!

Pigging out on workplace messes since 1985.

Back in '85, our founders ran a small, industrial cleaning business and needed a better way to clean up the oil leaking from machinery. They were sick and tired of dealing with clay — it was a mess to clean up the mess. After many failed experiments, they filled their wives' pantyhose with corncob and it worked like magic. The first PIG Sock was born and the contained absorbents revolution was alive!

So, where'd that funny name come from?

Our first product testing area was nicknamed the Pig Pen where our prototype looked like it was wallowing in slop. People kept calling them "pigs," and the name stuck. We tried to name our company "Pig Corporation," but it was already registered to a local farmer. We added "New," and the rest is history.

Made right here in Tipton, PA.

More than three decades later, we're still making our own absorbents in the same small town where we started. PIG products have reached more than 300,000 facilities in over 100 countries, on all 7 continents! So give us a try — we're always happy to help you find cleaner, safer, better ways to work.

WE PIG PROMISE TO KEEP CUSTOMERS HAPPY!

Helpful Service — Get through to real people, really fast!

At New Pig, you'll never have to wade through phone menus or repeat yourself five times to a voice recognition robot. From our offices in Tipton, PA, an actual human being says *Hello* and asks how we can help! 96% of calls are answered within 3 rings and 99% of chats connect within 9 seconds.

Reliable Shipping — We bust our butts to deliver your stuff.

Thanks to our speedy warehouse crew and massive in-stock inventory, your order is shipped as fast as humanly possible. And when you order using Autoship, you'll never run out of your favorite PIG products! (newpig.com/autoship)

Risk-Free Shopping — Every penny back. No strings attached.

We stand behind 100% of our products, 100% of the time. So if you buy something and it's just not working out, we'll refund every single penny, including taxes and freight. We'll even schedule and pay for the return shipping!

NEW PIG SERVICE GOES THE WHOLE NINE YARDS!

ABSORBENTS

THE BEST ALL-AROUND SINCE 1985.

Chris I.
— Director
of Product
Operations

World's first sock: The PIG that launched an industry.

In the early '80s, our founders were working hard cleaning up grease and grime in dirty factories. The worst job was shoveling up the loose, oil-soaked cat litter around the bases of leaking machinery. The clay pellets stuck to everything, and when they started losing money on these jobs, they set out to find a better way to soak up the mess.

They cut up pantyhose and stuffed them with everything from sawdust to rice hulls. Then they laid these sausage-shaped things into pools of oil to see what would happen, but nothing worked. Finally, they tried ground corncob, and the world's first contained absorbent was born — the PIG Original Sock!

Old-school “solutions” don’t work!

FLIMSY CARDBOARD

Slips and slides underfoot;
even when it's taped down.

HEAVY, HAZARDOUS CLAY

Makes a mess of floors,
machinery and your lungs.

CHEAP COMPETITOR MATS

Can't hold their liquids and
fall apart in tough jobs.

Choose your absorbents to fit your liquids.

Our color-coded absorbents make it easy to choose the appropriate absorbent for the type of liquid you're cleaning up.

■ UNIVERSAL

They soak up the widest range of liquids for everyday applications including oils, coolants, water and solvents.

See pages 6–13

■ OIL-ONLY

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills even in outdoor applications.

See pages 14–15

■ WATER

PIG Water Absorbents are designed for quick-acting, higher-volume absorbency that works on contact.

See page 16

■ HAZMAT

PIG HazMat Absorbents are specially treated to soak up acids and bases without degrading or reacting.

See page 17

IT'S THE WORLD'S #1 BRAND FOR A REASON.

PIG MAT

BRAND X

NEW PIG NEVER CUTS CORNERS.

MAT SIZE HASN'T CHANGED

Our most popular PIG Mat (MAT240) has been the same size for over 15 years. No shrinkflation here!

THE BEST RESINS

We always use resins that are the cream of the crop, never cheap fillers or substitutes. Garbage in equals garbage out!

TRUE WEIGHT

We never overloft to make stacks look thicker. You get the same formula every time, always 100% genuine PIG Mat.

QUALITY CONTROL

Monitoring consistency on our PIG Mat production runs avoids lumps, flecks and voids from lines that are run too fast.

REAL-WORLD ACCURATE

Published specs like size, weight and absorbency are tried and true so you know exactly what to expect from your PIG Mat.

OTHER MAT BRANDS GIVE YOU LESS.

SMALLER SIZES

Trimming a 15" x 20" pad down to 15" x 18" reduces surface area and material cost by 10%, giving you 10% less absorbency.

LOWER QUALITY

Using lower grades of resin and cheap fillers saves costs on their side, but performance *and* chemical compatibility are affected.

OVERLOFTING

Injecting air may reduce material costs, but those overlofted fibers underperform in absorbency and retention.

RUSHED PRODUCTION

In an effort to lower their costs, companies run lines faster than they should, creating voids, hard flecks and high lumps.

MISLEADING SPECS & CLAIMS

Product specs might have been true at one time in lab settings, but they don't reflect real-world use and applications.

PIG MAT: TRIED, TESTED & TRUSTED!

WE'VE GOT STANDARDS, YES WE DO.

Nobody beats the quality, engineering or performance of the World's #1 Mat Brand. To make sure our claims translate to real-world performance, we conduct regular testing, following strict ASTM and ISO standards. Our goal is for every PIG Mat to do what we say it will do. **If it doesn't pass these 7 tests, we don't sell it to you:**

1. BASIS WEIGHT — ASTM D3776

2. BULK (LOFT) — ASTM D1777

3. OIL/WATER CAPACITY — ASTM F726-17 and ISO 20158:2018

4. TENSILE STRENGTH — ASTM D5034

5. RECIPROCAL ABRASION — ASTM D3884-22

6. ROTARY ABRASION — ASTM D3389

7. VERTICAL WICKING — ISO 9073-6-2000

PIG UNIVERSAL ABSORBENT MATS

Absorbs anything, works anywhere. The world's #1 absorbent mat.

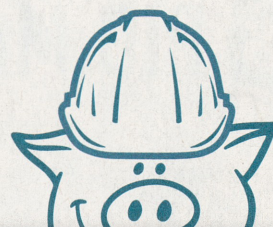

TRIED & TRUSTED

PIG Mat delivers the perfect balance of absorbency, retention and durability. When we say universal, we mean it! Our best-selling gray mat soaks up all sorts of stuff, including hydraulic oil, acetone, coolants, propylene glycol and many other noncorrosive liquids.

SAVES YOU MONEY

By staying down longer and needing fewer changeouts, PIG Mat saves you time and money. When cheaper mats can't keep up and need constant replacing, those initial "savings" go right out the window.

HELPS YOU COMPLY with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition.

**SPILL RISK
REPORT**

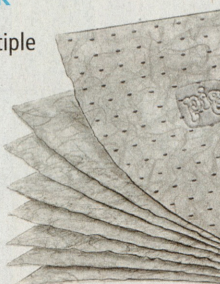

Our physics-based algorithm analyzes your spill risks so you can protect your people, comply with regs, and be more prepared for inspections.

PIG BLUE MAT

Our most absorbent mat stays down longer so you use less and save \$\$\$.

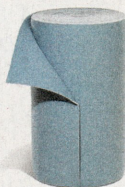

Clean up big, persistent leaks and drips with our maximum absorbency pads — they soak up more than any other mat we offer. PIG Blue Mat requires fewer changeouts than standard mats, which saves you time and money by staying down longer. Pads and rolls won't fall apart, even when soaked with coolant, paint, gear oil and viscous liquids. Mats contain 75% recycled fibers and fire retardant.

PIG ULTRA-DUTY GRIPPY MAT

Use our toughest adhesive-backed mat for your highest-traffic areas.

Put Ultra-Duty Grippy Mat to work in entrances, aisles, transition areas, and walkways that see tons of traffic. From boots to wheels to whatever, our most durable mat can handle it all. Create as much walk-off coverage as you need — without dangerous gaps or overlaps — to help keep floors dry and prevent slips, trips and falls. Unlike traditional rubber-backed mats, Ultra-Duty Grippy Mat never shifts, ripples or bunches up, so it won't obstruct doors or become a tripping hazard.

PIG INDUSTRIAL GRIPPY MAT

Soak up oily messes to stop slips and trips in the workplace.

An industry first invented here at New Pig!

Adhesive-backed absorbent mat stays exactly where you put it but peels up easily for quick changeouts. The top layer with zigzag stitching stands up to foot- and light-wheeled traffic. Traps oil, grease and grime while being easy to cut and apply.

It's perfect for lining areas next to and around industrial equipment and workstations or for covering workbenches.

HELPS YOU COMPLY with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

"Pig Absorbent Socks work fantastic keeping our floors clean and dry of unwanted oil and solvent leaks. They are priced right and get the job done! Customer service is fantastic and a pleasure to deal with."

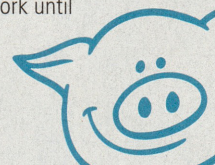

— JEFF,
HAPPY CUSTOMER

Corncob filler pulls liquids from the floor for maximum absorbency.

3 SIMPLE STEPS TO GET THE MOST OUT OF YOUR PIG SOCKS.

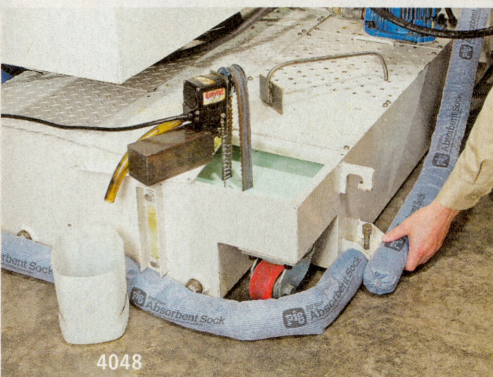

1. Clean up all loose absorbents, rags and other debris around the source of the leak. Hold each sock by its ends and shake to evenly distribute filler. This will create better surface contact.
2. Make sure your PIG Socks have direct contact with the floor and the liquid being absorbed. Don't stack socks on top of each other. When placing end-to-end, overlap them by 3".
3. If it ain't soaked, don't pitch it! Let the sock work until it's saturated. Replace the sock when you see liquid seeping out from underneath.

BOM304

PIG OIL-ONLY ABSORBENT BOOMS

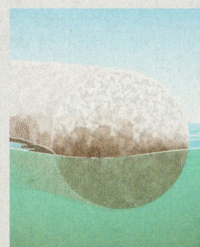

Control oil and fuel spills on water.

Booms float at surface for easy retrieval, even when saturated. Outer mesh is UV resistant for long-term outdoor use; lets fluids pass through to filler material. Meets ANSI and MIL-SPEC standards for static decay.

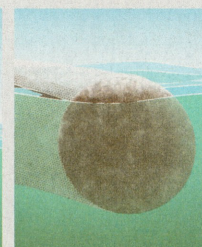

OIL-ONLY BOOMS AT WORK

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

PIG OIL-ONLY ABSORBENT SOCK

The best outdoor sock.

Moldable UV resistant sock hugs corners and surrounds equipment bases to absorb leaks, contain puddles and help keep workers safe. The cellulose filler is 95% recycled content and hydrophobic — absorbs oil-based liquids but not water. Ideal for use on land, but also floats to clean up oil spills on water. Attached string lets socks be tied down, tied together, or dipped in noncorrosive wash baths.

Wring and reuse during a single cleanup event

PIG WATER MAT

The ONE mat to stock for cleaning up water problems.

PIG Water Mat has superfast wicking that helps you quickly eliminate puddles to prevent damage, slips and falls. Be prepared to soak up water from inclement weather or from maintenance and system breakdowns. Cleaner than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors.

PIG MILDEW-RESISTANT WATER SOCK

Deploy long-term, air-dry and reuse!

Flexible socks absorb water from under freezers, coolers and equipment. Polypropylene skin and filler resist the growth of mildew so they can be left down long-term. To reuse, simply air-dry and redeploy or squeeze water from socks for faster results.

PIG105

NOTE: Not for use in direct sunlight.

PIG HAZMAT ABSORBENTS FOR ACIDS, BASES & UNKNOWN LIQUIDS

MAT301

ABSORBENTS

HAZMAT

MAT309

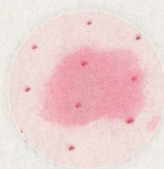

124CR

PIG HAZMAT ABSORBENTS

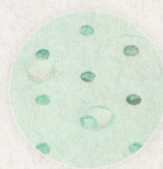

Safely soak up chemical spills.

Absorbs the widest range of acids, bases, corrosives and chemicals — even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide. Great for use in chemical storage areas, around battery packs and dip tanks, in cleaning agents used in food processing plants, in boiler rooms, labs, and R&D departments. High-viz pink color is designated for hazardous chemicals and easy to identify. Available in Pads, Rolls and Socks.

OURS

PIG HazMat completely absorbs 98% sulfuric acid.

THEIRS

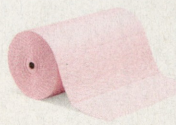

Highly concentrated corrosives just puddle on top.

SPILL KITS

IT'S WHAT'S INSIDE THAT COUNTS.

Carolyn I. —
Product
Manager

Top 3 things that separate PIG Spill Kits from the pack:

- 1 World's #1 Absorbents inside**
PIG Mats, Socks, Pillows and Loose are the best you can buy — found exclusively in PIG Spill Kits.
- 2 Filled for fast response**
We pack our kits in the order you need the contents, so there's no dumping or digging required!
- 3 Biggest selection anywhere**
From UN Rated salvage drums to grab-and-go bag kits, you'll find a Spill Kit that's a perfect fit.

The supplies you need first are right on top and easy to access.

Choose a Kit based on the liquids at your facility:

UNIVERSAL

For everyday cleanup of oils, coolants, solvents and water.

Pages 19–21

OIL-ONLY

Repels water so you can absorb oils and fuels, even in rain or on water.

Pages 22–23

HAZMAT

Specially treated to soak up highly concentrated acids and bases.

Pages 24–25

PIG SPILL KITS HELP YOU COMPLY

SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

HAZWOPER 29 CFR 1910.120 (j)(1)(viii)

Requires spill responders to have "DOT specified salvage drums or containers and suitable quantities of proper absorbents," in areas where spills may occur.

KIT202

PIG SPILL KIT IN OVERPACK SALVAGE DRUM

Strong enough to earn a UN Rating for shipping spill cleanup waste.

Clean up spills and then ship the waste in these durable overpack salvage drums. X-rated for Packing Groups I, II and III for shipping by land, sea or rail. Leakproof, twist-on lid is notched for easy removal or tightening with a 2x4 or pole. Molded ledges make container easy to move by forklift.

PIG Absorbents are packed in lift-out baskets (50-, 65-, and 95-gallon kits only) to provide speedy access and block damaging UV rays. Tamperproof seals help prevent pilfering of spill response supplies.

HELPS YOU COMPLY with regulations listed on opposite page.

NEWPIG.COM

PIG SPILL CADDY

Swing-out doors and flip-top lid offer instant access to spill supplies.

Wheel these caddies to large spills or use them as highly visible central stations for absorbents and spill supplies. Swing-out doors, prepacked shelves and compartments make carts easy to inventory and access. The only kits that hold a mounted roll of PIG Mat for easy pull-and-tear dispensing. Narrow enough to fit through most aisles and doorways.

Choose standard Caddy or step up to the Big Daddy — almost 2X larger and absorbs over 2X more!

NOTE: Not for outdoor storage unless a protection cover is installed. See page 25.

PIG PROTECTION COVERS

Add visibility and guard spill kits from UV rays and weather.

Keep water, snow, dirt and debris off lids and resist weathering and UV rays. The high-visibility color is easy to locate and has an attached see-through pocket for an identification label. Made of durable, PVC-laminated polyester and elasticized bottom, these covers are available in multiple sizes to fit various types of kits. For overpacks with handles, elastic cutout lets handle stick out but won't let water in.

PLR222

PLR222 includes 50 feet of berm plus corners and sealant.

BUILD-A-BERM BARRIER

Configure a barrier of any size or shape to fit your leak-prone areas.

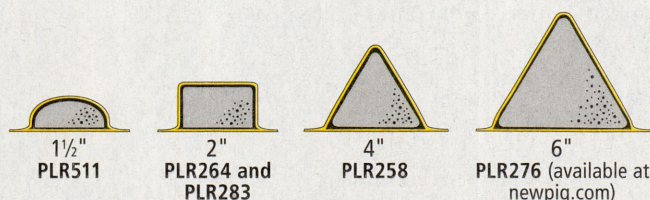

Contain leaks and spills around your machinery without building expensive concrete curbs or installing angle iron. You can create a custom semi-permanent barrier that's exactly the size and shape you need, indoors or out. Pliable open-cell foam barrier springs back into shape after you walk or roll over it with light, wheeled equipment. Durable, 18-oz. all-vinyl covering resists oils, coolants and most chemicals. High-visibility barrier draws attention for increased safety.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

"We have installed this Build-A-Berm kit in order to contain paint. The ease of being able to drive over it, and put pallets of paint in the locations makes it a great product. I would highly recommend this to any company trying to fulfill regulations and even just for the ease of use."

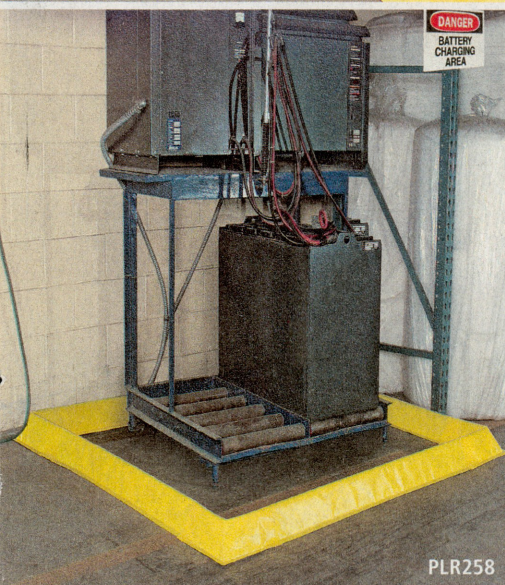

— ANDREW, PLR530 CUSTOMER

DRAIN PROTECTION

Stormwater Regs: Why comply?

Noncompliance with EPA's Stormwater Regs can get you popped with a violation. But aside from the hassles and headaches, protecting the environment is just the right thing to do.

We know NPDES, SWPPP, SWMP and BMPs

If you're in a group that must comply (call us if you're not sure!), you need to obtain National Pollutant Discharge Elimination System (NPDES) permit coverage by filing a Stormwater Pollution Prevention Plan (SWPPP) or Stormwater Management Plan (SWMP). Plan requirements may include implementing Best Management Practices (BMPs), which is where PIG products come in handy.

HELPS YOU COMPLY with 40 CFR 123.12 SPCC Regulations
SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations
Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

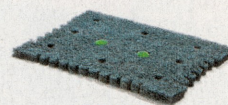

Removes 99% of particulate size 0.425mm and larger.

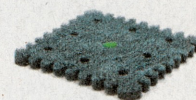

PIG OVER-THE-DRAIN SEDIMENT FILTER

Magnets hold this filter in place for easy installation and removal.

Remove sediment and debris from stormwater before it enters your drains and inlets. Natural coconut fibers are densely woven and vertically oriented to maximize sediment removal and flow rate. Integrated magnetic strips on underside allow installation in seconds — no lifting the grate, no cable ties, no pinched fingers! It's a reusable product that can be rinsed and reinstalled for extended service.

PIG STORM DRAIN FILTER

Adjustable frame and 4-stage filtration guards drains.

Stainless steel adjustable frame holds up to 60 lbs. of fuels, oil, sediment, debris and trash; stays in place even when grate is not installed. It's an easy one-person job to install, maintain or remove. Four-stage filtration: PET construction removes contaminants from stormwater at multiple stages, increasing the amount of pollutants captured.

FLT718

FLT718

FLT787

Overlap socks to cover longer distances — no staking or trenching required.

PIG STORMWATER FILTER SOCK

Easy and affordable ways to filter contaminants from runoff.

These socks won't grow mold like compost, nor will they release harmful compounds into the water supply like rubber media. The strong but flexible outer skin allows water to flow through while the filter media removes pollutants. They're perfect for use on uneven surfaces like rough terrain or broken asphalt.

- FLT787 features a natural, recycled, shelf-stable media that filters sediment, trash and debris
- FLT710–FLT711 remove sediment, oil and debris using parboiled, oven-dried rice hulls as the inner material
- FLT717–FLT718 have the rice hull filler plus activated carbon and zeolite; they remove heavy metals like copper, lead and zinc in addition to sediment, oil and debris

DID YOU KNOW?

95% OF STORM DRAINS ARE AT RISK FOR OIL SHEEN RELEASE.

From rigs leaking oil to garbage trucks blowing hydraulics, your parking lots catch it all. Those stains throw off oily sheens every time it rains, sending polluted runoff into your drains.

Data provided by our patented Spill Risk Algorithm.

STORMWATER
SAFE!

PIG MICROBIAL OIL STAIN REMOVER

Break down and eliminate oil and fuel stains with this unique stormwater-safe solution.

Environmentally friendly formula requires no containment or cleanup. Our stormwater-safe solution is easier than using cleaners and degreasers that cannot be allowed into waterways — just check their SDS to see the warning!

- Gradually removes stains from pavement and concrete to eliminate rain runoff and sheen emissions
- BioBreaker™ microbes digest hydrocarbons through bioremediation which converts them to water and harmless gases
- Applies easily using a manual sprayer (available at newpig.com) and light agitation or a pressure washer
- Inspector-friendly best practice eliminates lasting record of stains
- Great for use in parking lots and around docks, dumpsters, compactors, stockpiles and more

THE PIG DIFFERENCE

PIG Leak Diverters are engineered to outperform cheap tarp-and-hose contraptions:

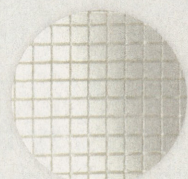

EASIER, SECURE HANGING

Multiple grommet points help maintain funnel shape.

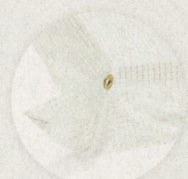

STRONGER MATERIALS

No sagging or drooping so water won't spill over.

BETTER SHAPE FOR MAX FLOW

Pinched corners direct water flow to center of tarp.

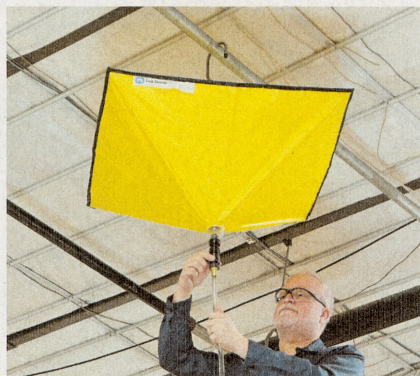

FASTER DRAINING

Built-in debris cage stops clogs to keep big leaks flowing.

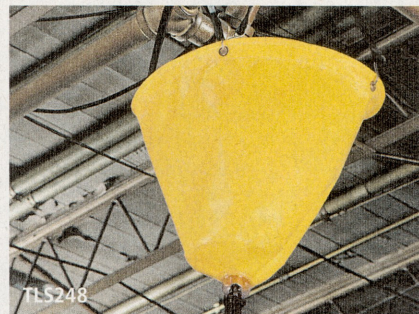

Hang the diverter from a single point near the leak. Remove sleeve and diverter pops open!

Attach the flexible hose to channel the leak to a floor drain or collection container.

PIG PIPE LEAK DIVERTER

Control pipe leaks and condensation.

Hang from a leaking pipe and channel liquid to a drain or container. Available in yellow, gray or clear. Hanging straps included; hose sold separately (see page 37).

PIG UMBRELLA-STYLE ROOF LEAK DIVERTER KIT

Pop open the fastest solution you can buy to catch a roof leak.

Skip the straps; this Diverter doesn't need 'em. Hang from a single point near the leak, remove the cover and open it like an umbrella! All-in-one kit helps prevent damage to inventory or machinery and prevents slip hazards. Included 10'L drainage hose (TLS461) or 25'L hose (TLS903) channels nuisance leaks to a drain or container.

PIG AEROSOL SINGLE-CAN RECYCLER

Puncture aerosol cans to avoid the hassle of haz waste handling.

Why pay for hazardous waste disposal, when you can cash in by selling properly emptied cans as scrap steel? Our recycling system easily punctures aerosol cans, rendering them exempt from haz waste regulations when properly emptied.

Recycler works with domed mini, standard and jumbo aerosol cans (minimum 2" Dia x 5"H, maximum 3" Dia x 9.5"H with sleeve removed). Unit mounts directly into 2" bung on a 30- or 55-gallon closed-head steel drum and residual liquids drain directly into the drum (drum should not be filled more than 70% full to provide proper displacement for released contents).

One-piece filter system captures odors and harmful VOC's released by punctured aerosol cans, which protects the environment and workers. Filter life is three months and the timestrip indicator eliminates the guesswork of changeouts.

HELPS YOU COMPLY with 40 CFR 261.1(c)(6) that defines scrap metal

Punctured cans have no sharp, jagged edges.

PIG SILICONE WATER VACUUM BARRIER

Attach to your wet/dry vac to contain and capture water at the same time.

Cleaning up large volumes of water from routine washdowns and minor flooding just got easier! Place this barrier on the floor, attach to your wet/dry vac, then squeegee water toward it. Works with most standard wet/dry vacs — no special equipment needed. Directing water toward this 6' long barrier is easier than trying to guide it to a floor drain or pump, and it provides a backstop to prevent water from going where you don't want it to.

This barrier eliminates the hassle of priming a pump or having a pump motor fail from dry running. It's reusable and cleans easily with soap and water, so it's perfect for hospitals, schools, property management and much more.

Water is drawn into side and bottom ports, then out to your vacuum.

PIG® Silicone Water Vacuum Barrier		
Item #		1+
WTR052 • 4"W x 6'L x 2.25"H • 1/box		\$199

PIG LATCHING DRUM LIDS

One-hand access makes it easy to meet haz waste regulations.

Did you know that if you take the lid off a drum storing haz waste and don't put it back on, you're violating the EPA's closed container regulations? PIG Latching Drum Lids make compliance a breeze. They open and close with one hand, freeing up your other hand to add waste — no nuts, no bolts, no fuss! Nitrile gasket and locking mechanism seal lid to help reduce vapor emissions and keep drum contents dry and secure.

HELPS YOU COMPLY with 40 CFR 261.4 for management of solvent-contaminated wipes

HELPS YOU COMPLY with 40 CFR 262.15 for containers in satellite accumulation areas

HELPS YOU COMPLY with 40 CFR 264.1086(c)(1)(ii) requiring haz waste containers to be sealed to prevent VOC emissions

HELPS SMALL AND LARGE QUANTITY GENERATORS COMPLY with 40 CFR 262.16(b)(2)(iii) requiring haz waste containers to be kept closed

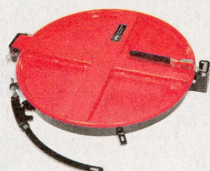

2 MODELS TO CHOOSE FROM:

LATCHING LID WITH FAST-LATCH RING (DRM1072)

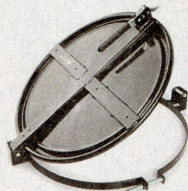

Fast-latch ring makes installation easy on a new or reconditioned drum; no nut-and-bolt ring. Adjustment rod lets ring expand to fit drums with larger diameters. Three color choices help you segregate waste.

LATCHING LID WITH STANDARD RING (DRM659)

Don't want the convenience of the fast-latch ring? We still offer the same quality in our standard bolt ring model.

JUST ONE HAND!

Fast-latch ring (DRM1072) makes installation easy on new or reconditioned steel drums.

Removable hinge pin lets you remove the lid without loosening the band.

Adjustable tension means the latching handle will close properly every time!

DRM1125
Red

PIG Barrel Top Mat
sold on page 8

PIG BURPLESS STEEL DRUM FUNNEL

Clean pouring, no splashback and one-hand latch for easy compliance.

Patented Burpless design lets you pour without having to vent through 3/4" bung — a possible closed container reg violation if left open. Steel construction is FM Approved for flammable liquids when equipped with a Flame Arrestor (DRM617, sold separately). Lockable latching handle opens and closes lid with one hand. Nitrile gasket and locking mechanism create a vapor-tight seal.

Large Funnel (DRM1210) can empty a 5-gallon pail in 17 seconds!

HELPS YOU COMPLY with regulations listed on page 40

DRM1210

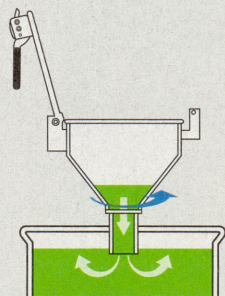

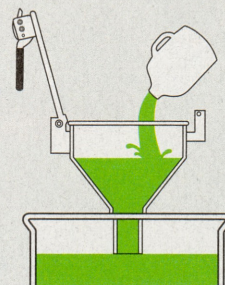

DRM1127

DRM617

HOW AN OVERFILL PREVENTER WORKS (DRM1127 ONLY):

When liquid level reaches bottom of preventer, funnel stops draining and starts to fill up. Trapped air stops liquid from rising. To empty, twist funnel and preventer counter-clockwise and lift to drain contents into remaining airspace.

PIG® Burpless® Steel Drum Funnel

(Specify Color: Black Red Yellow)

Item #	1-4	5+

SPILL CONTAINMENT

NOBODY STACKS UP TO PIG.

Andy B. —
Product
Manager

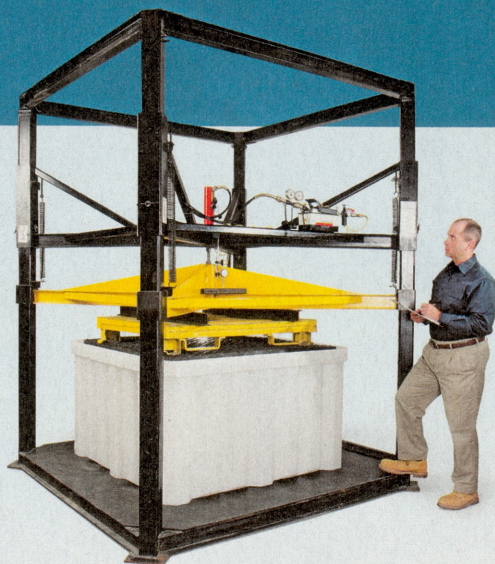

Designed and tested PIG tough.

Containment products are your last line of defense against nasty liquids — so failure is not an option. That's why we tend to go a little overboard with our product testing.

Extreme measures

We built the hulking machine shown here to push the limits of our decks and pallets. It can easily simulate your real-world jobs, but we crank up the pressure and keep it there for months to ensure performance when it counts. So whatever you do to your PIG Pallets, we've punished them even worse.

Don't waste your money on products that can't handle the pressure. PIG Decks and Pallets are designed, tested and guaranteed not to fail.

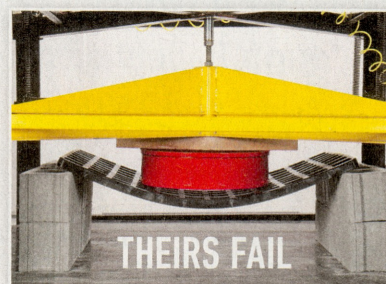

You can't buy a stronger pallet or deck.

PIG GRATES TAKE THE PRESSURE

Our compression tester simulates long-term, full-capacity drum storage.

PIG passes with flying colors!

OTHER BRANDS BEND AND BOW

Anything less than level is an accident waiting to happen. Why risk it?

Play it safe with PIG!

HELPS YOU COMPLY

40 CFR 264.175

Secondary Containment Regs require full containment for haz waste to prevent releases into the environment. Full containment is 100% of the largest container or 10% of the total volume, whichever is greater.

40 CFR 122.26

Stormwater Regs require facilities with an SWPPP to describe the plan and equipment to prevent illegal discharge of pollutants into waterways

40 CFR 122.7

SPCC Regs require written plans and documentation of the products that are in place to prevent discharge of oil into waters

PIG POLY SPILL PALLETS

PIG-tough Pallets catch leaks, drips and spills to help you meet regulations.

How are Pallets different from Decks? Pallets are best when: you need full containment; you need to move your containment with a forklift; or you don't have enough floor space to build a modular system.

All PIG Spill Containment Pallets feature molded-in sumps to catch escaped liquids and keep your storage areas clean and safe. Low-density polyethylene construction resists UV rays, rust, corrosion and most chemicals. Textured grating adds traction and lifts out for easy sump access. Choose from three models to suit your needs.

HELPS YOU COMPLY with regs listed on page 43

HEAVY-DUTY PALLETS

The only pallets strong enough to be moved by forklift with drums in place (MUST be strapped down). Engineered for long-term storage of liquids with high specific gravities.

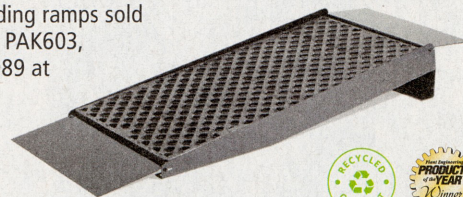

STANDARD-DUTY PALLETS

The perfect blend of strength and savings for everyday drum storage. Holds fully loaded steel or poly drums without sagging.

ECONOMY PALLETS

These pallets may be economical, but they're strong enough to store fully loaded steel drums (not recommended for long-term storage of poly drums).

Poly and steel loading ramps sold separately. Search PAK603, PAK734 and PAK989 at newpig.com.

★ = Best-Seller

Drum tops and funnels are easy to reach!

PIG POLY DRIP & SPILL DECKS

Practice good housekeeping with low-profile, easy-to-load Decks.

How are Decks different from Pallets? Decks are best when: you're storing drums of non-hazardous liquids; you need to store smaller containers in full compliance; or you need low-profile easy access.

PIG Poly Decks are built PIG-tough but with lower profile designs and smaller sump capacities. Strong enough for storing steel or poly drums, easy to load and unload, pumps and funnels are easy to reach.

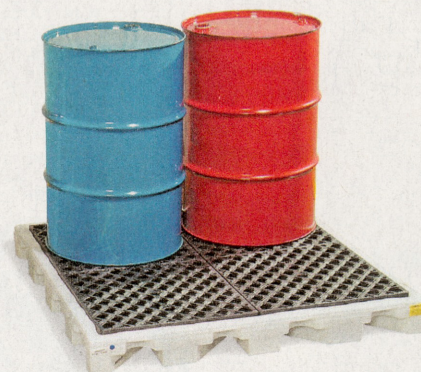

POLY MODULAR SPILL DECK

Patented "flow through" sump design lets you mix and match sections to fit your space and build up to your required sump capacity.

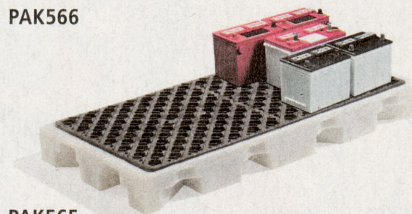

HELPS YOU COMPLY with regs listed on page 43 (depending on size of haz waste containers stored)

Patented bulkhead fittings let liquids flow from one deck to another. (Modular Spill Decks only)

PIG ROLL TOP HARDCOVER SPILL PALLET

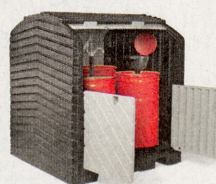

Protect your drums and IBCs from the elements with roomy roll tops.

Without containment, your leaks and spills are direct contaminants to the environment. Low-profile pallet with sump catches leaks while keeping drum tops and accessories within reach.

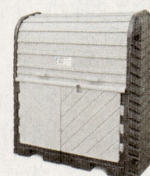

Weather-resistant design prevents contaminants from entering stormwater, and heavy-duty construction allows unit to be lifted by a forklift with drums in place. Low-density polyethylene (LDPE) with UV inhibitors resists UV rays, rust, corrosion and most chemicals. Optional .75" drain plug lets you empty the sump without removing drums or grating. Doors and roll top can be secured with padlock (not included).

In addition to the roll top, PAK601 features durable swing-out doors on the front for easy loading and unloading. PAK901 and PAK902 have swing-out doors on the front and the back to provide access from both sides. PAK902 provides protected storage and containment for IBCs up to 52" L x 52" W x 53" H.

IBC200

PIG COLLAPSE-A-TAINER CONTAINMENT BERM

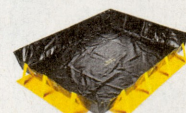

Create affordable drive-in containment anywhere you need it.

No assembly required; collapsible sidewalls have attached skirt with outside aluminum-reinforced supports that help the walls stay rigid. Made of a durable geomembrane that resists chemicals, abrasion and tearing, and sides fold down to allow pallet jacks and forklifts to be driven in and out. Folds to a compact size for easy transportation and storage.

PAK108

PIG TANK CONTAINMENT SUMP

Park your tanks in these sumps to avoid spills — indoors or out.

Extra-large sumps contain leaks, spills and overfills to help prevent slippery floors indoors and groundwater contamination outdoors. (For outdoor applications, use with Elasticized Tarps sold at newpig.com. Search PAK969 or PAK579.) Low-density polyethylene resists UV rays, rust, corrosion and most chemicals for a long, troublefree life. Multiple sizes available, with or without drains, to fit most common tank sizes.

PAK580
Shown with PAK579

PIG® Tank Spill Containment Sump

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.
Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

PAK249

WASTE OIL TANK

Store up to 500 gallons of waste oil.

Bulk capacity eliminates small containers and centralizes waste oil storage. Tank's double-wall, 10-gauge steel construction withstands impact and provides leak-tested containment. Durable powder coating resists chipping, rust and corrosion. Generous 10" diameter fill hole features a lockable hatch and debris screen; 2" vent helps prevent pressure buildup.

NOTE: Not intended to be used as storage for new oil.

10-Gauge Double Wall Waste Oil Tank with Accessories

Item #	1+

Mailing List Rental Preference: We occasionally make our customer list available to a few reputable, carefully screened companies whose products we feel may be of interest to you. If you do not wish to receive such mailings, you may do any of the following and we will promptly remove your name from our rental list. Mail: New Pig Customer Lists, One Pork Avenue, P.O. Box 304, Tipton, PA 16684; call: 1-800-643-01NK (6465); or email: hothogs@newpig.com.

Limited Warranty: Except as described in our 100% Money-Back Guarantee, there are no express warranties or implied warranties including, but not limited to, merchantability and fitness for a particular purpose. New Pig shall not be subject to and disclaims: 1) All obligations or liabilities arising out of breach of contract or of warranty, 2) All obligations whatsoever arising from tort claims (including negligence and strict liability) or arising under other theories of law with respect to products sold or services rendered by New Pig or any undertakings, acts or omissions relating thereto, and 3) All consequential, incidental and contingent damages whatsoever.

Prices: All published prices are in U.S. dollars and must be paid in U.S. dollars. In the event of a printing error, New Pig reserves the right to charge the correct price. New Pig works hard to maintain prices, but they are subject to change due to market conditions.

Terms: These terms and conditions shall constitute the entire agreement between New Pig and the purchaser, and shall be governed by and construed according to the laws of the state of Pennsylvania and the United States of America.

OSHA Hazardous Substance Product Information: Safety Data Sheets are enclosed with all orders where required. If you would like a Safety Data Sheet prior to order, please call customer service at 1-800-468-4647.

Attention Distributors: If you hold integrated supply contracts with your customers and would like to provide New Pig Products to them, give us a holler. You may qualify for special pricing. Please call our Integrated Supply Team at 1-800-328-2464.

Offers expire in 30 days.

New Pig Adhesive-Backed Mat Notice: New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces and never on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable and may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes. All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floors or other surfaces.

For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage and should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

WHERE'S YOUR LEAK?

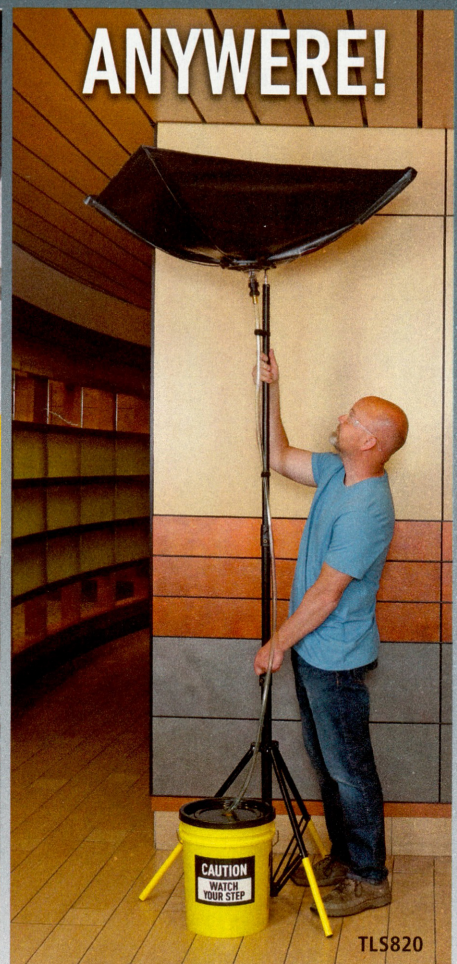

ROOFS

PIPES

ANYWHERE!

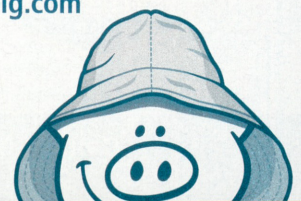

We've got a Leak Diverter to match!

No workplace is immune to the threat of overhead water hazards. Sometimes they're weather-related problems such as a leaky roof caused by a major rain storm. Other times, they're an operational problem like ruptured pipes or equipment condensation.

Whatever the cause may be, there's a PIG Leak Diverter that will suit. The benefits to having them on hand are endless! They help prevent facility water catastrophes before they happen, and they keep your floors dry and safe. They also help prevent ruined equipment and inventory, lost production time, and even possible injuries.

Our best-selling Leak Diverters are on pages 37–38, or you can visit newpig.com to see the entire product line.
